Attachments: Signed Matt Salazar EPA applicability letter 2-19-2016.docx

Hi Guy, just following up on this. We have Mr. Koucky's request. There is currently another request ahead of it. These types of requests can take quite a bit of time to review depending on their complexity.

The Region 9 contact is Charles Aldred. He's in our Enforcement Division - (415) 972-3986 .

Subject: Aemerge Request for Applicability Determination - Incineration

Attached please find a request from Aemerge, LLC for an evaluation of regulatory applicability for their carbonization/gasification process.

The request documents the endothermic nature of the Aemerge pyrolytic gasification and carbonization process.

Thank you in advance for your review,
